

3M S657 Versaflo Headtop with Shoulder Coverage

Product Code

3MS657

Available in Sizes

ONE SIZE

Available in Colours

White
3MS657

Similar to the S-655, the 3M S-657 Hood uses a double shroud design for its respiratory seal; wearers can select on their seal design based on personal preference. The wearer should tuck the inner shroud into a shirt or protective coverall, which allows excess air to be channelled over the body for additional comfort.

The 3M S-657 Hood offers head, face, neck and shoulder coverage as well as providing eye and face protection to EN166 - liquid splash and low energy impact (grade F) the same classification for impact resistance as safety spectacles! Manufactured using a general purpose, fabric, the S-657 is a cost effective, practical powered air solution.

When used in conjunction with 3M Powered and Supplied Air Systems the S-657 offers an assigned protection factor (APF●) of:

- Jupiter APF= 40
- Dustmaster APF= 10
- TR-300 APF = 40
- V-500 APF= 40

Assigned Protection Factor (APF) as detailed in HSE HSG53.
