

## CBD RESCUE CREAM 500MG

Product Code

CM0191

- Canabidol CBD RESCUE CREAM® offers an all-natural cannabis CBD cosmetic, clinically proven to repair, restore and soothe your skin.
- Infused with our quality CBD plant-based extract, naturally fragranced with terpenes and essential oils.
- This nourishing formula will leave your skin feeling healthy and restored.

- The defining feature of Canabidol™ CBD RESCUE CREAM® is the fine balance of real cannabis terpenes, and the active ingredient CBD.
- These naturally occurring compounds are what give cannabis many of its beneficial qualities.
- The secret to making any CBD product lies in perfectly balancing the quantities of terpenes against each other.
- The years spent in the laboratory perfecting Canabidol™ CBD RESCUE CREAM®, gave a product with a blend of terpenes in just the right ratios to provide the absolute optimum effect.
- This ratio was extremely difficult to find, and took an extraordinary amount of time to fine-tune.
- Giving a product that marks a true turning point for cannabis products.
- Following the work of the lab team, it felt it was only right that Canabidol™ CBD RESCUE CREAM® was put through a clinical study, to demonstrate with raw hard data that this product is like no other.
- We are now able to announce that Canabidol™ CBD RESCUE CREAM® is the first CBD cream to be clinically proven effective to soothe, relieve and repair your skin.

- Directions for use:
- Apply CBD cream to designated area of skin and massage in until fully absorbed.
- To activate pump, continue to pump top until CBD cream starts dispensing.

- Ingredients: Aqua, Cannabis sativa L. Seed Oil, Cetearyl Olivat, Theobroma Cacao, Cannabis sativa L. Extract (CBD), Ylang Ylang Oil, Eucalyptol, d-Limonene, α-Pinene, β-Pinene, Linalool, Terpinolene, Benzyl Alcohol, Benzoic Acid, Sorbic Acid.

- One pump of 500mg delivers 2.2mg of CBD
