## Safeguard Medical Olaes Modular Trauma Bandage 4"

**SAFEGUARD**  
MEDICAL™

The Olaes Modular Bandage. A new generation of trauma bandage.

The Olaes Modular Bandage is for the management of moderate haemorrhage. Featuring a pressure cup to help control bleeding and control strips to aid application. The Olaes is packed with 3 meters of 4ply gauze, a removable occlusive plastic sheet tucked behind the trauma dressing pad, and a pressure cup that can focus the pressure on the wound site.

The pressure cup is transparent and allows for a visual inspection of uncontrolled haemorrhage without removing the bandage. The pressure cup can also act as a rigid eye shield.

No other trauma bandage offers as much versatility as the Olaes Bandage, even in it's small and compact package. It's compact package means less storage space is taken up in medic and first responder bags with a 6 year shelf life.

With the Olaes Modular Bandage, you can:

- Cover all minor wounds
- Apply truly effective pressure dressings
- Apply occlusive dressings
- Pack severe wounds

Latex Free.

- Elastic wrap with built in 'Control Strips' to prevent inadvertent unraveling.
- 3 meters of sterile 4 ply gauze.
- Plastic occlusive sheet included in dressing pocket
- Transparent pressure cup that focuses pressure on the wound site and allows for visual inspection of uncontrolled hemorrhage.
