DATASHEET

Defibtech Lifeline AED Semi Automatic Defibrillator

- Lifeline AED semi-automatic defibrillator is safe and straightforward to use even in the harshest of environments. Its easy voice prompts ensure it can be used by anyone, even without prior training.
 - All the rescuer needs to do is place the pads as per the voice instructions and press the shock button and the defibrillator will do the rest, deciding if a shock is needed.
 - Proven by independent studies to be the one of the easiest AED's for use by untrained operators
 - 8-year manufacturer's warranty including free software upgrades in line with resuscitation guidelines
 - Tested to military standards, making the AEDs extremely robust and durable
 - Complete daily, weekly and monthly self-tests to ensure the units are always 'rescue ready' and require no maintenance
 - Clear voice instructions, including CPR coaching to further simplify the rescue for responders
 - The standard Lifeline Defibrillator Battery (approx. 5 years) is capable of performing 125 defibrillator shocks or 8 hours of continuous operation
- Contents
- Defibrillator, 5-year battery, 1 set of adult pads, user manual, quick use card
